1. System Capability and Integration

ACTIVITY PRIORITIES AND DESCRIPTION

PROGRAM KEY PRIORITY AREA

Alcohol and Other Drugs

AIM OF ACTIVITY

This Activity aims to support the alcohol and other drug treatment sector and primary health care professionals in workforce development, education, quality improvement and service integration, and continue to identify health and service needs across the region.

DESCRIPTION OF ACTIVITY

This activity enables alignment of activities with our priorities for increasing service delivery capacity and improving integration of treatment services. The networks created under the NIAS funding will be strengthened to provide governance, and advice on system integration and workforce development.

The Darling Downs and West Moreton PHN will continue to consult with stakeholders in planning and commissioning alcohol and other drug treatment services. The PHN will also work collaboratively with all key stakeholders across the spectrum of alcohol and other drug services seeking opportunities to create partnerships and linkages to services for those at risk in the community.

Needs Assessment Priorities

PRIORITIES
Enablers
Mental health and problematic substance use

2. Outclient Treatment Services - Aboriginal and Torres Strait Islander

ACTIVITY PRIORITIES AND DESCRIPTION

PROGRAM KEY PRIORITY AREA

Alcohol and Other Drugs

AIM OF ACTIVITY

This activity aims to provide access to appropriate outclient treatment services management for Aboriginal and Torres Strait Islander people through increased service provider capacity in the West Moreton, Southern downs and Toowoomba regions.

DESCRIPTION OF ACTIVITY

Darling Downs and West Moreton PHN will continue to commission local ACCHOs and alcohol and other drug treatment organisations to provide culturally appropriate outclient treatment service types, increasing the accessibility and capacity of these organisations.

Our PHN will support Aboriginal Medical Services (AMS) and ACCHOs to deliver high quality services that meet the needs of Aboriginal and Torres strait islander people and their communities. These funding opportunities are aimed at increasing capacity to deliver services through an extension of existing services, where possible the establishment of new service locations, or the provision of outreach services.

Referrals are made into these services via Hospital and Health Services, General Practice, Probation & Parole, Child Safety, NGOs and self-referral. Where appropriate, clients are transitioned into residential rehabilitation and withdrawal management services. In addition, clients may be referred from residential rehabilitation and withdrawal management services into these outclient services as part of relapse prevention community care.

3. Outclient Treatment

ACTIVITY PRIORITIES AND DESCRIPTION

PROGRAM KEY PRIORITY AREA

Alcohol and Other Drugs

AIM OF ACTIVITY

This activity aims to provide access to appropriate alcohol and other drug outclient treatment services through increased service provider capacity.

DESCRIPTION OF ACTIVITY

Darling Downs and West Moreton PHN will continue to commission local alcohol and other drug treatment organisations to provide outclient treatment service types, increasing the accessibility and capacity of these organisations.

As identified in the NGO AOD Services report prepared by QNADA, outclient treatment services required in the Darling Downs and West Moreton region include:

- non-residential day stay rehabilitation services;
- relapse prevention – aftercare/follow-up services;
- case management; and
- counselling.

The PHN will continue the commissioning of organisations experienced in delivering evidence-based alcohol and other drug treatment services under this activity. These funding opportunities are aimed at increasing capacity to deliver services through an extension of existing services, the establishment of a new service location, or the provision of outreach services.

Referrals are made into these services via HHSs, general practice, Probation and Parole, Child Safety, NGOs and self-referral. Where appropriate clients are transitioned into residential rehabilitation and withdrawal management services. In addition, clients may be referred from residential rehabilitation and withdrawal management services into these outclient services as part of relapse prevention community care.
