

Project ECHO®

Older Persons Series - Dementia Awareness

You're invited!

Darling Downs and West Moreton PHN in collaboration with West Moreton Health and Darling Downs Health invite you to join the Project ECHO® Older Persons Series in 2023. This exciting opportunity is open to all health professionals in the West Moreton and Darling Downs region caring for older persons in any capacity.

What is Project ECHO?

Project ECHO® (Extension for Community Healthcare Outcomes) is a collaborative knowledge- sharing model designed to create a 'learning loop' between health professionals via Microsoft Teams, with the aim of increasing knowledge and access to health care in local communities and bringing care closer to home.

Each session focuses on a specific topic and allows participants opportunity to contribute client cases or questions to our specialist panel and the group, with the aim to problem solve challenges, share experiences and workshop solution based ideas to improve care delivery.
