

# Project ECHO Information Sheet

Darling Downs and West Moreton Hub

Older  
Persons  
Series

Darling Downs and West Moreton PHN in collaboration with West Moreton Health and Darling Downs Health are pleased to be launching the Project ECHO® Older Persons series.

We invite all health professionals in the West Moreton and Darling Downs region caring for older persons in any capacity to join and share in this community of practice.

## What is Project ECHO?

Unlike a regular webinar, Project ECHO offers an interactive community of practice where all participants share knowledge and experience so people in underserved communities can receive high-quality care and services.

Project ECHO is based on an 'All Teach and All Learn' model where all participants and panel members learn from each other to improve the delivery of care for patients.

## ECHO vs webinars

Benefit	ECHO	Webinar
Is there rapid dissemination of detailed information?	Somewhat useful	Very useful
How many other participants will attend?	Up to 50 is ideal to enable interactivity	Depends on license - up to 1000 or more
Will I be able to ask questions?	✔	✘
Will I hear expert advice and peer input into my own clinical cases?	✔	Limited
Is this a 'community of practice' I can become a valued part of?	✔	✘
Is it possible to share resources with national and international health practitioners?	✔	Possible but not promoted

## What to expect

The Project ECHO® Older Person series will extensively cover a range of topics from cognitive impairment (BPSD), palliative care, falls, chronic wound management and more. The monthly 60-minute online sessions will include didactic presentations from the panel experts, real-life case presentations by participants with discussion and collaboration around case problem solving.
