Smart Referrals check list before installation

If you are unable to complete or unsure of any items below please contact your IT provider.

Best Practice Install check

General Information:

- Best Practice Site ID (see Registration guide pg 6 for instructions)
- The practice is on Best Practice Premier/LAVA. (see Registration guide pg 6 for instructions)
- Best Practice Database Browser password available (IT provider will have this, it is not the password into BP)
- Windows environment: 7 and above (Smart Referrals will not work on Windows XP) on every workstation at the practice (see Registration guide pg 8 for instructions)
- IE (Internet Explorer) version 11 and above on every workstation at the practice
- HPI-O for the practice (see Registration guide pg 4 for instructions)
- IT provider contacted and aware of install
- NASH certificate available if required
- Microsoft .NET version is 4.5 or above (see Registration guide pg 11 for instructions)
- GP information up to date in the Queensland Health STS address book

Medical Director Install check

General Information:

- Medical Director ID (see Registration guide pg 6 for instructions)
- The practice Medical Director version is 3.17.1 or above (see Registration guide pg 6 for instructions)
- Windows environment: 7 and above (Smart Referrals will not work on Windows XP) on every workstation at the practice (see Registration guide pg 8 for instructions)
- IE (Internet Explorer) version 11 and above on every workstation at the practice (see Registration guide pg 9 for instructions)
- HPI-O for the practice (see Registration guide pg 4 for instructions)
- IT provider contacted and aware of install
- Practice is on a Terminal Server configuration – version 3.17.1 or above of Medical Director. (see Registration guide pg 7 for instructions)
- NASH certificate available if required
- Microsoft .NET version is 4.5 or above (see Registration guide pg 11 for instructions)
- GP information up to date in the Queensland Health STS address book

This practice setup form will need to be completed for each practice. Please return this completed form to DDH-SmartReferrals@health.qld.gov.au. Once this is done an appointment will be made for installation and basic training of Smart Referrals. If you have any questions or concerns please email DDH-SmartReferrals@health.qld.gov.au

Registration guide

This guide will provide you with the necessary steps to ensure you have all the information needed to register to use Smart Referrals. Please ensure the details in the set up form are correct, the instructions below will assist in finding information where required.

Please complete the Smart Referral Installation checklist before returning this form to Smart Referrals, if you need assistance with any items please contact your IT support.

Please note:

- A minimum of 15 minutes for each workstation installation leaving time for troubleshooting if required.
- On the day we need a user with administrator privileges to login to Windows and have a GP PMS account available.

Every practice wishing to use Smart Referrals must agree to the terms and conditions.

Practice name

For Smart Referrals to provide e-referral recipients with accurate information, the practice name in your clinical software must reflect your actual business name. To change your Location/Practice Name in your clinical software to your actual business name, please see below.

Medical Director

Your practice name can be found by clicking Tools > Options on the Medical Director toolbar. Once the options are open click the Practice tab to view your practice name. See the area in yellow in Figure 1.

If your practice name needs to be edited click Set up > Set up users from the Medical Directory toolbar. Once the license details are open enter your correct practice name and click save. See Figure 2.

The screenshot shows the 'Options' dialog box with the 'Practice' tab selected. The 'Practice name' field is highlighted in yellow and contains the text 'HCN Samples Database'. Other fields include Address (205 Bourbong Street), City/Suburb (Bundaberg), Postcode (4670), Phone (1300 788 802), Fax (07 4151 1896), E-mail (hcn.samplesdb@hcn.samplesdb.com.au), Practice ID (888888), VSP number, HPI-O No, Organisation Type, Service Type, and checkboxes for 'Use Suburb and Postcode as default for new patients', 'Participates in the CTG PBS Co-Payment measure', and 'Auto-capitalise names'. 'Save' and 'Cancel' buttons are at the bottom.

Figure 1. Medical Director practice name

The screenshot shows the 'Licence Details' dialog box. The 'Practice Name' field is highlighted in yellow and contains 'HCN Samples Database'. The 'Practice ID' is 888888. The 'Product Name' is 'Medical Director'. The 'Licence Key' is a green bar with a 'Validate' button. Below, the 'Medical Director Licence Details' table shows:

Product	Expiry	Users
Medical Director (Demo)	1/02/2021	20 Prescribers
Surgical Audit Tool	1/02/2021	20 Prescribers

'Save' and 'Cancel' buttons are at the bottom.

Figure 2. Edit practice name in Medical Director

Best Practice

Your practice name can be found by clicking Set up > Practice details from the Best Practice toolbar. If your practice name needs edit you can do this by clicking Change, see the areas highlighted in Figure 3, enter the correct name and click save. See Figure 4. To modify any location names click the Edit button shown in Figure 3.

Figure 4. Edit practice name in Best Practice

HPI-O details

Medical Director

Your practice HPI-O number can be found by clicking Tools > Options from the Medical Director toolbar. Once the options are open click the PKI tab. Under the IHI and My Health Record Certificates section double click My Health Rec... to open the certificate details. The HPI-O number is listed beside Issued To. See areas in yellow in Figures 5 and 6.

Certificate Type	Issued To	Issued By	Expiration Date
HI Signing		Medicare Austra...	29/07/2018
HI Encryption		Medicare Austra...	29/07/2018
My Health Rec...		Medicare Austra...	29/07/2018

5. Medical Director PKI certificates

Figure 6. Medical Director HPI-O number

Best Practice

Your practice HPI-O number can be found by viewing the certificate details via the certificate manager. Click the Start button , type certmgr.msc into the search box at the bottom of the page and press Enter.

Under Certificates - Current User expand the Personal folder and click the Certificates folder. Certificates installed will be displayed in the right hand pane. You will see a NASH cert that begins with general.80031234626, see Figure 7. This is your HPI-O number.

To view the full details double click the certificate, the HPI-O is displayed beside Issued To. See the areas in yellow in Figure 8.

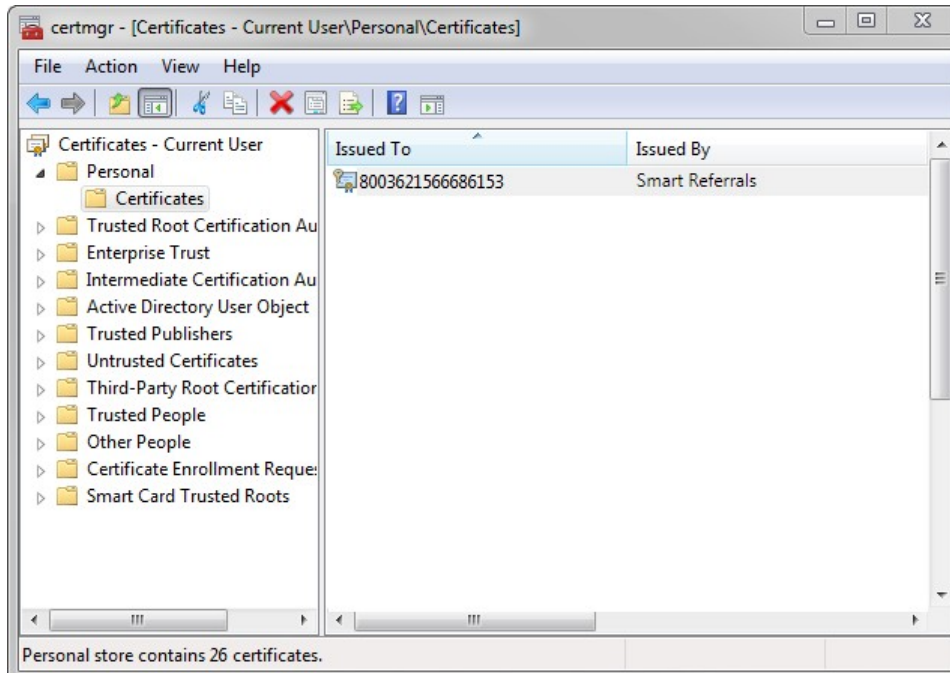

Figure 7. Certificate manager

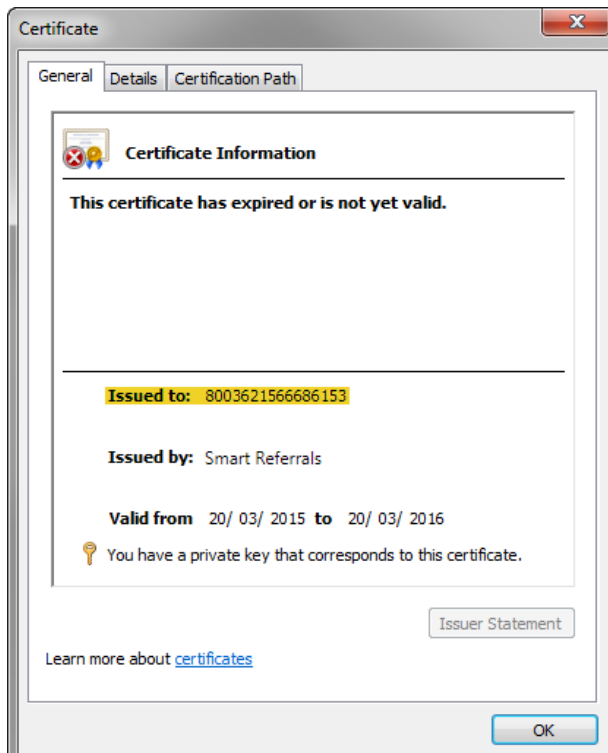

Figure 8. Best Practice HPI-O number

Clinical software details

Medical Director

The Medical Director software version and practice ID can be found by clicking Help > About... from the Medical Director toolbar. See areas in yellow in Figure 9.

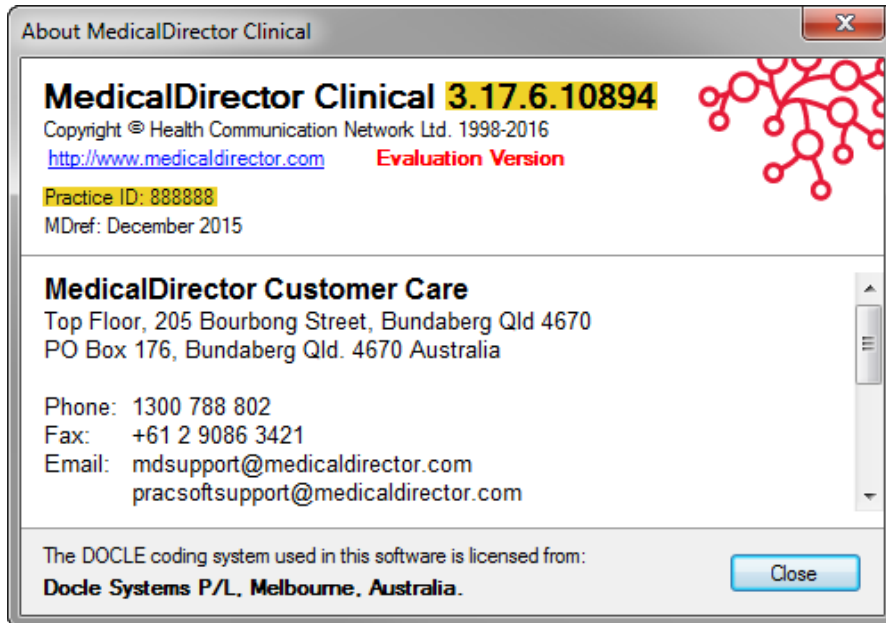

Figure 9. Medical Director details

Note: Medical Director version 3.17a has a known bug where Medical Director is advising practices to update to 3.17.1. Alternatively, you can contact BPAC Clinical Solutions for a Medical Director patch to fix the issue.

Best Practice

The Best Practice software version and site ID can be found by clicking Help > About from the Best Practice toolbar. See areas in yellow in Figure 10.

Figure 10. Best Practice details

Terminal server set up

One way to identify if you are running a terminal server is if you are accessing your clinical software via Remote Desktop Connection. Remote Desktop Connection is accessed using the icons shown in Figure 11, you will then be prompted to connect. Once connected you will see the blue bar shown in Figure 12 at the top of your screen.

If you follow the step above you are likely running a terminal server environment. If you have any questions or concerns regarding terminal servers, please contact your IT support to confirm.

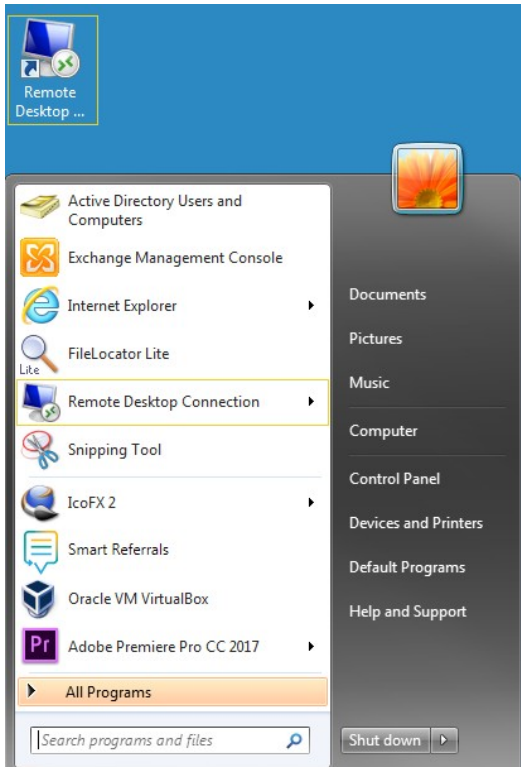

Figure 11. Remote Desktop Connection icons.

Figure 12. The Remote Desktop Connection toolbar

Windows version

To find your windows version click the Start button  > Control Panel > System. The windows version is listed under the Windows edition section. See areas in yellow in Figure 13.

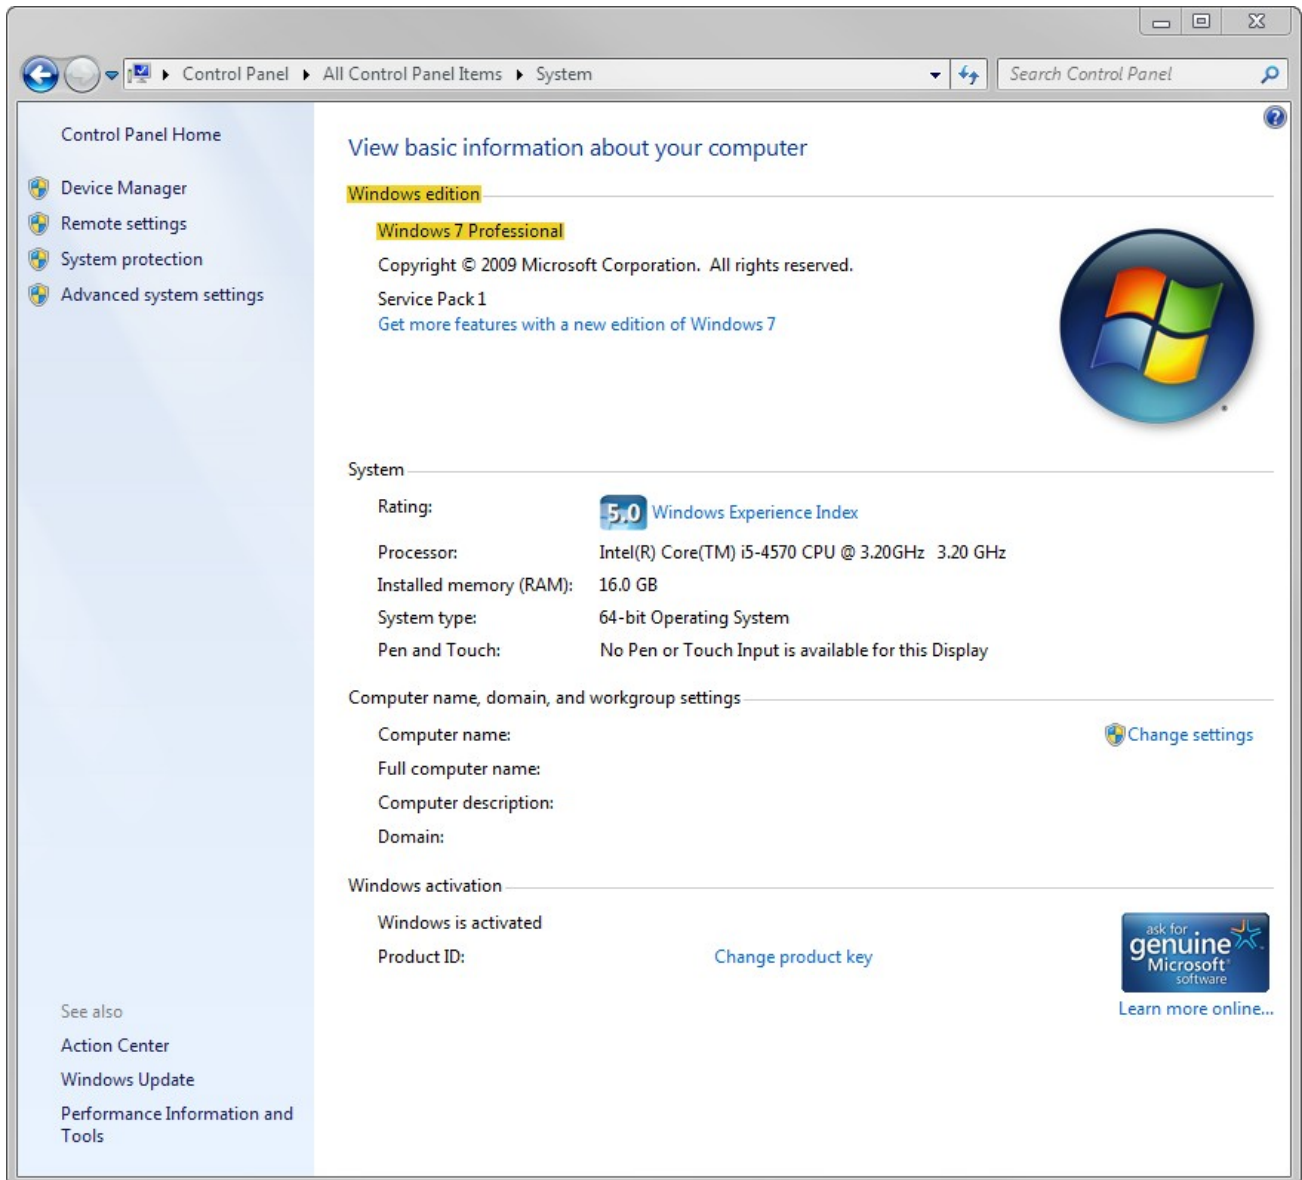

Figure 13. Windows version details

Internet browser

Internet Explorer

To find the Internet Explorer version click the tools icon , located on the top right of the toolbar, then click About Internet Explorer. See Figure 14. The version number will be displayed in an information popup. See areas in yellow in Figure 15.

Figure 14. Internet Explorer tools.

Figure 15. Internet Explorer details.

Google Chrome

To find the Chrome version click the tools icon , located on the top right of the toolbar, hover over Help then click About Google Chrome. See Figure 16. This will open a new tab displaying the version number. See areas in yellow in Figure 17.

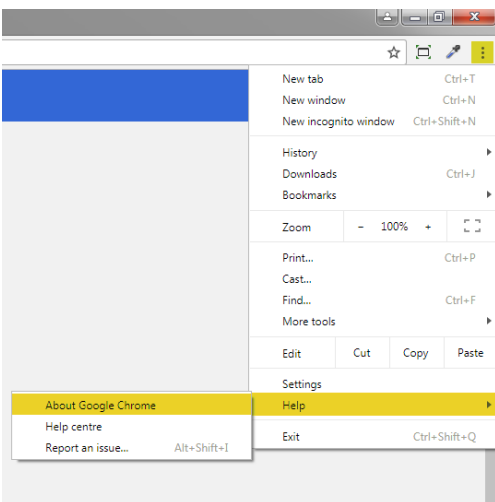

Figure 16. Google Chrome menu

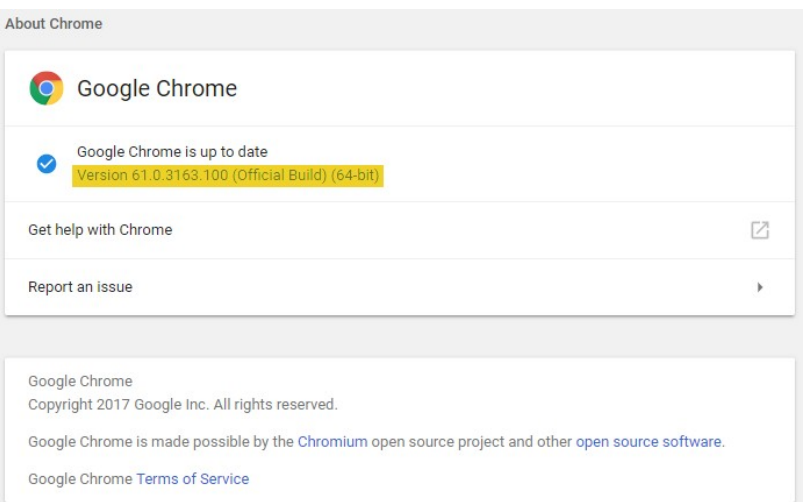

Figure 17. Google Chrome details

NASH certificate

Finding if the NASH is current: clicking the Start button , type certmgr.msc into the search box at the bottom of the page and press Enter.

Under Certificates - Current User expand the Personal folder and click the Certificates folder. Certificates installed will be displayed in the right hand pane. The general NASH cert installed it begin with 800123456432. See Figure 18. To check if the expiry date is valid double click on the certificate, see Figure 19. If it isn't then a new NASH Certificate may need to be ordered.

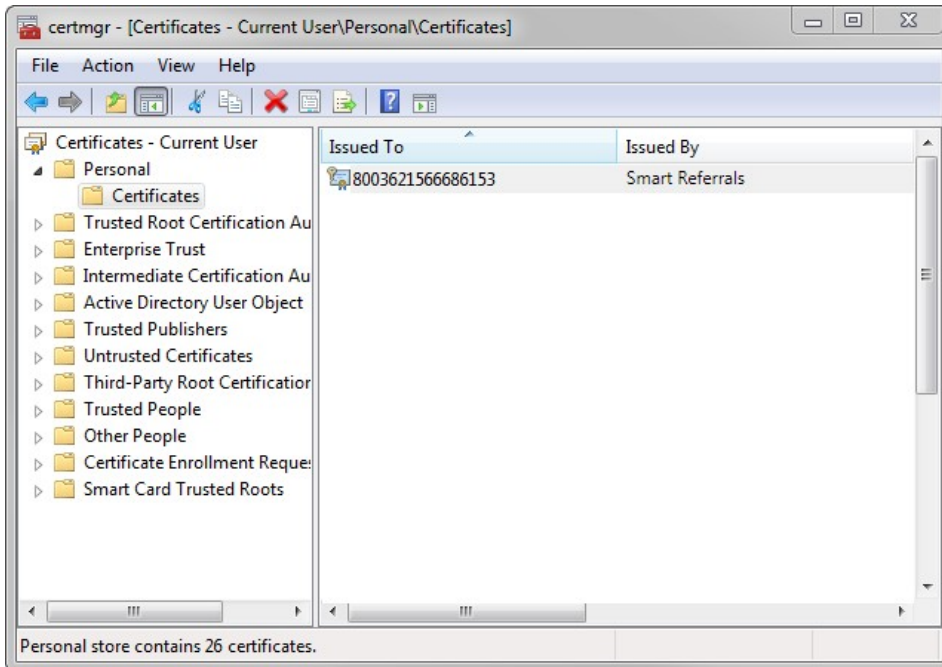

Figure 18. Certificate manager.

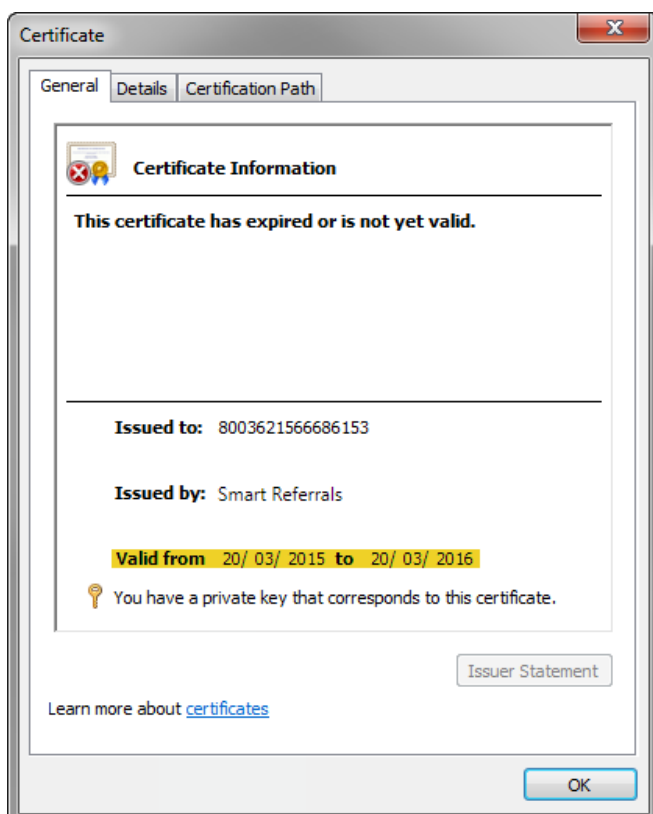

Figure 19. Test NASH certificate expiry date information

Microsoft .NET version

To check if your .NET version is 4.5 or above click the Start button > Control Panel > Programs and Features. The version number is displayed beside the program name, see the area in yellow in Figure 20.

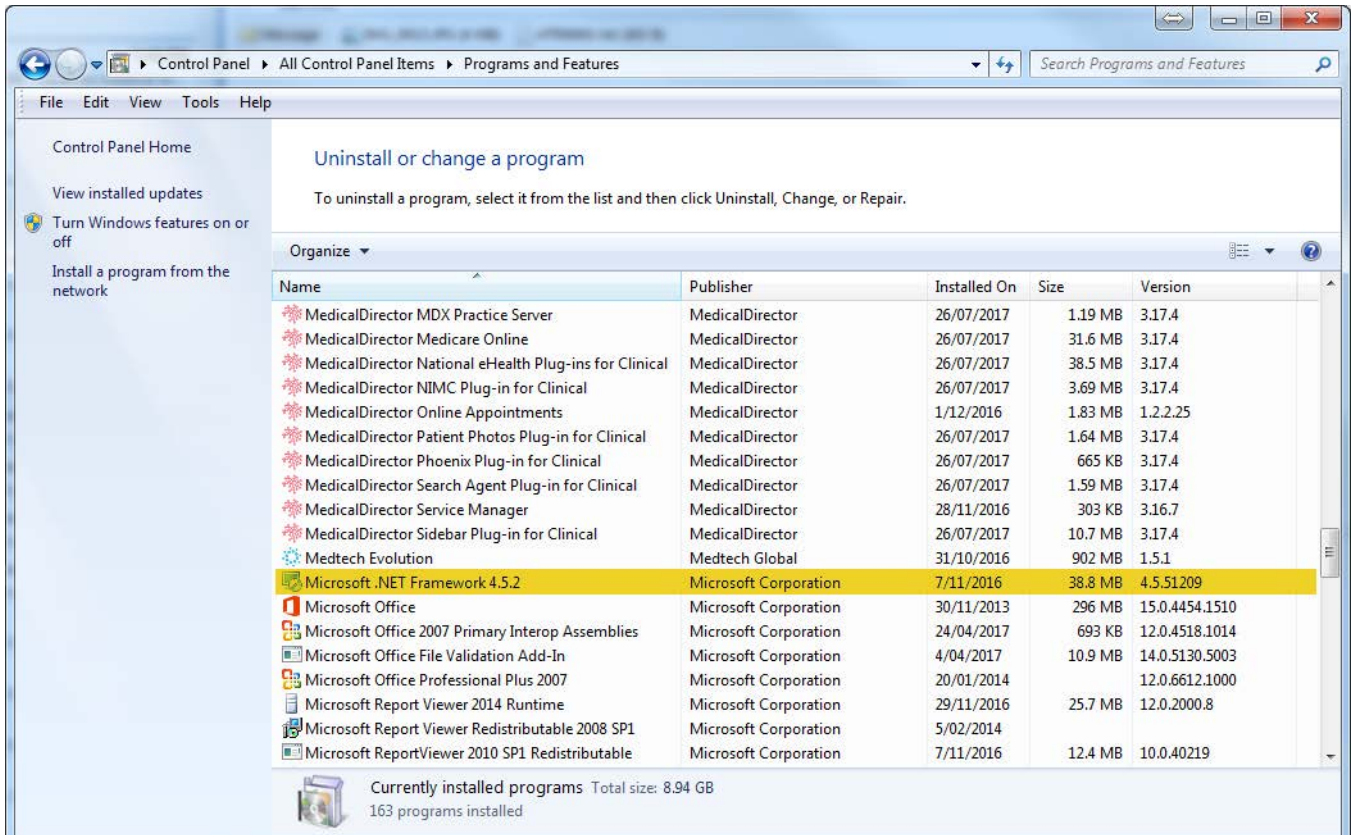

Figure 20. Microsoft .NET version

Best Practice database password

In order for Smart Referrals to operate it has to talk to BP and authenticate with it. The way it does this is through inputting the BP Database password in a setup screen when the program is downloaded onto each PC.

This password is usually setup on installation of BP by either your IT person or through direction from BP itself. If you do not have a record of this check to see that this was actually inputted in the first place. If it hasn't you can set it up yourself, but please keep a record of it in a safe place.

If either you or your IT provider cannot remember what this is password is, then you will need to ring BP and get it reset. This is an easy process and BP will direct you through it.

To see if you have a BP password already setup, undertake the following instructions (see Figure 21):

- Under Setup choose Configuration
- This will display options on your left – choose Database
- When this option has loaded choose Database Browser
 - If there is a password present it will show and you may need to reset it via BP if you cannot remember it
 - If it is blank then you are able to fill this in and create a password.

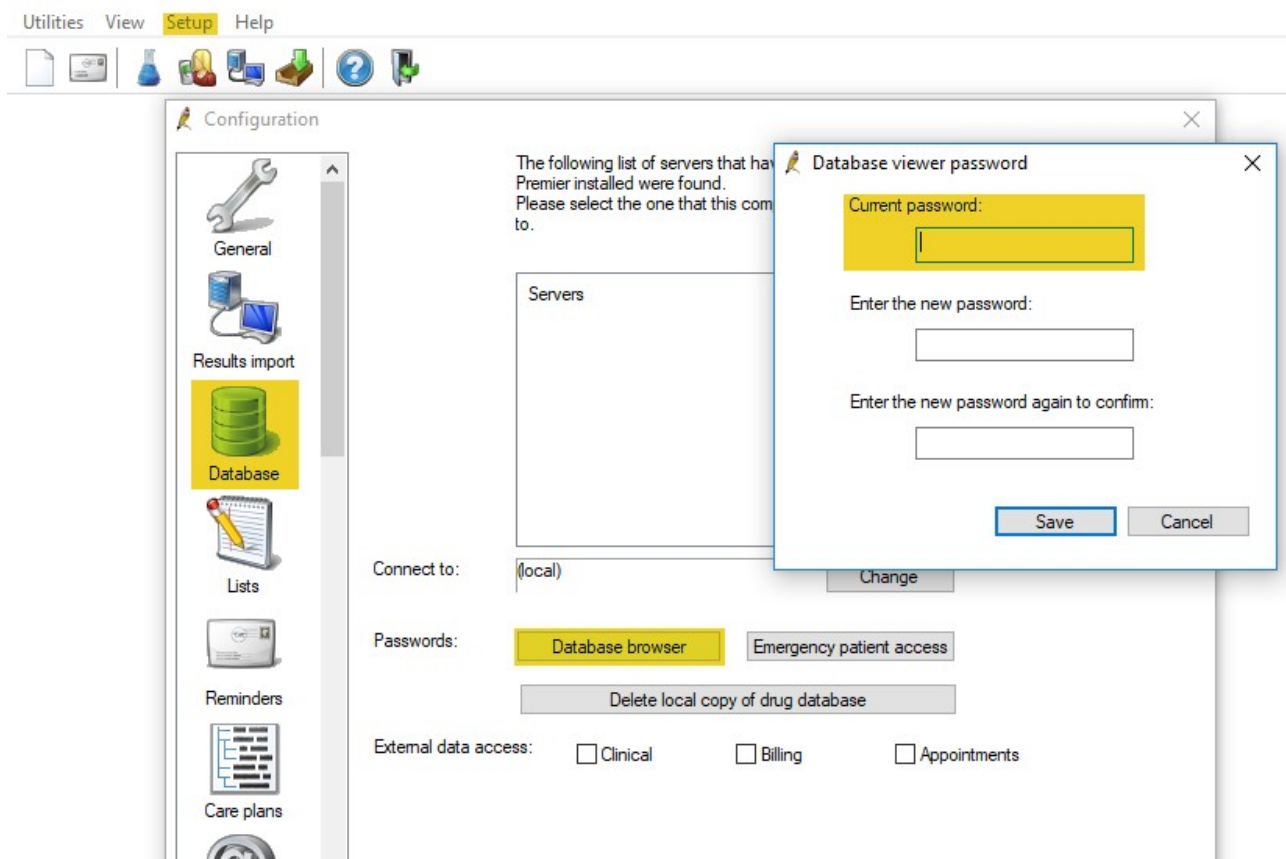

Figure 21. Finding your Best Practice database password

Practice PC details

If PCs at your practice have varying specifications, please enter the details below. Please note that the minimum requirements to use Smart Referrals are: Windows 7 or above, Internet Explorer 11 or above or Google Chrome.

ID	Location/office number	Windows version	Internet browser used and version	Comments
